# Integrated Campus Management System

SmartCampus transforms the way faculties teach and students learn, reshaping courses across the curriculum—and dramatically improves the learning experience of the students. This new technique also includes a rigorous assessment of its educational results. Ultimately this product can be used to improve education and make it more interesting to the students.

SmartCampus is a modular, flexible, and adaptable solution for effective and efficient management and delivery of services of Schools, Colleges, Institutions and Group of institutions.

## The aim of SmartCampus is :

- To improve management systems of Educational Institutions
- To enhance innovative teaching and learning methods and making it interesting
- To increase students attention towards learning of lessons / subjects
- To improve the learning experience of the students by clearing doubts of the students in the real time environment
- To assess the results of the student rigorously
- To switch over to paperless education - all notes are captured in the smart device spontaneously during the course of learning.
- To enable virtual meeting with the parents at any point of time

SmartCampus, is a Comprehensive Management Software for all type of Educational Institutions like Schools and Colleges and it is being developed using J2EE Technology (Java, EJB, and MySQL).

SmartCampus, is the comprehensive suite of software application, providing the Educational institutions the power of harnessing "Information Technology" tools towards managing and operating the institute effectively. The suite offers a complete freedom to add modules or remove them based on the customer needs.

The fully integrate suite offers various products which when fully integrated brings in a truly paperless and smooth information flow within the institute. The application suite is built on an open framework, enabling the user to use the existing hardware and software resources to the fullest efficiency.

SmartCampus has a comprehensive student information system that enables you to easily manage a wealth of information online over the internet:

- Basic Modules
- Grades, transcripts, and report cards.
- Standards and assessments.
- Attendance
- Demographics and activities.
- Class and student schedules
- Statute reporting
- Student Medical Information.
- Hostel Management
- Transport Management
- Library Management
- Fee Management
- E-Learning / Digital Library

This covers almost all functional areas of educational institutions and the same can be extended to Mobile and Tablet technologies also.

- ✓ One solution from Admissions to Alumni
- ✓ Management, Students, Parents under one roof
- ✓ Delivered as Hosted Solution as well as ASP Model
- ✓ Easy to Install, Configure and Use
